

Health Insurance Plans Accepted by CentraState

CentraState accepts a wide variety of health insurance plans. Most of those plans are listed on the chart below*. Because insurers generally offer a variety of plans with different levels of coverage, you should always check with your insurance carrier to verify what services are covered, the extent (percentage) of coverage provided, and what, if any, deductibles, co-pays, and/or other expenses you may be responsible for under your particular insurance plan.

For the latest information about your coverage, please check with your insurance carrier. You can also contact our Managed Care office directly by calling [732-294-7055](tel:732-294-7055).

Resources: [NJHA Guide to Using Health Insurance](#)

Please NOTE:

Physicians who participate in your care, including emergency room physicians, surgeons, radiologists, anesthesiologists, pathologists, and consultants may or may not participate with the same insurance plans as CentraState. CentraState **cannot** assure that all physicians or consultants participate with all insurance plans. Your physicians' bills will be separate from the medical center bill. Please contact your insurance company to find out if these physicians are covered by your insurance plan.

If you have questions regarding a physician's bill that was received in relationship to medical care provided at CentraState, please contact the physician's billing office or the physician group. Contact information for our contracted physicians and groups is provided below. Some specialized care at CentraState may be provided by independent physicians who are professionally affiliated with CentraState, but neither directly employed nor contracted by the medical center. For any questions regarding an independent physician's bill that does not have information listed below, please call the number provided on their bill.

CentraState Medical Center is a participating provider in all Horizon Blue Cross Blue Shield Commercial health plans. Due to continuing changes in benefit plan designs, be sure to check your specific plan details for any restrictions/changes in coverage. In addition, CentraState Medical Center and Immediate Care Medical Walk-in are fully participating members of Aetna Insurance.
